INTRODUCTION

MY ENGLISH BOOK represents a preliminary easy plan of teaching English to children of less than 10 years old . For the sake of this aim , the art of been made use of .
This art , I think , I can easily simplify the thoughts and convey them to the child .
It can also make the child like this language and learn it faster and easier . It is supposed that this book will always be the child's companion .

I hope that I have managed to contribute a little effort to the process of developing the techniques of teaching English to our children ; the basiles of homeland .

In the future , this language will enable them to know about the know ledge , science and literature of other countries in a manner that helps in serving and developing their own beloved country .
